So why choose BACH and crystals?

Crystals emit electrons (light) into the energy field; the body and mind communicate via the nervous system, which is an electrical transmission of light through neurons.

What better way to help you change the way you think and feel than learning an Ancient Art of how to directly communicate with your heart wisdom and truth. Crystals amplify your senses and take you on a journey of self-discovery to reconnect with health, wealth and happiness. Yes they really do CHANGE how you see the world and help you take control.

With the correct frequency you will become more confident, you will find your own self-worth and self-esteem, you will release unproductive thought patterns and you will most definitely fall in love with all there is in the world. Happiness will blossom for you: You will become rich in more ways than you imagined and your health will improve.

Although the journey is initially one of self-discovery, employing a coach to help you along will fast track you to greatness. Learning where and why the energy locks in the body, understanding the root of all illness, learning which crystals will support you and how to use them effectively.

This is where Jackie Winters and her daughter Leanne Whiteside can offer you over 30 years' experience in research and commitment to the Crystal Kingdom. This will most definitely fast track your development. Jackie founded the BACH back in 2004 and is an author, presenter and motivational speaker... her classes are light-hearted and fun... but don't think you won't learn... isn't the best way to learn a new skill through play? She believes that laughter is the voice of the Gods and will help you along your way.

If you have been interested in Crystals then we urge you to make the best ever investment in your wellbeing by joining us here at the BACH. You are so worth it.... We invest so much money and time into mainstream... THIS IS JUST FOR YOU... and I GUARANTEE that your life will not be the same.
